Vol. 34, No. 39. CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA. FRIDAY, MARCH 30, 1928

California Ranch News

Hope for cheap spring lamb this season is vain despite reports of increased production in California. Approximately 5 per cent more lambs will be grown in this state than last year, but volume movement will be retarded owing to the merely average condition of the crop, according to a report from the San Francisco office of the livestock division of the United States Department of Agriculture. Lambing in the northern part of the state will be greatly benefiited by the recent rains which have brought up the grass, and it is expected that from April 15 to May 15 a large proportion of well-conditioned lambs will be moving to market.

Thirty tons of rhubarb is the expected yield from eighteen acres planted to the crop this year near Buena Park by R. L. Reynolds of La Habra. The variety is the Cherry rhubarb which possesses a fine color as well as flavor. The eighteen-acre tract contains 25,000 individual hills, planted seven feet between the rows, and four feet between the hills of the same row. Cropping can be done each month during the winter and spring, and an excellent market has been created for the product. Three carloads were recently shipped direct to the New York market, attracting a fancy price.

Additional payments on 1927 crop prune deliveries has been authorized by the executive committee of the California Prune and Apricot Growers' Association, according to announcement made by Joseph M. Parker, general manager of the organization. This payment will aggregate approximately one-half million dollars and will be made so that checks should be in growers' hands prior to April 1. Apportionment will be made as follows: One-half of 1 cent per pound to growers having delivered prunes of Sunsweet, Equality and Neutral classifications on sizes 20-30 to 80-90, inclusive, and 1 cent per pound to growers who delivered prunes classified as "D," "F" and Slabs." No payment is being made on prunes smaller than 90s at the present time.

Sheep owners of northern Sonoma and Mendocino counties have made preliminary plans for the fourth annual sheep and wool exposition which will be held in Cloverdale on June 9 and 10. The annual sheep show has become a state wide attraction for sheep men as well as for eastern visitors.

Half of the naval orange crop of the Redlands district has been shipped at the present time The shipments the rest of March and in April will be fairly heavy, and it is possible that more than the 1,550 cars will have rolled to the eastern markets by early next month. The shippers here say that prices have been favorable, most of the fruit having sold on the auction market for an average of $5 a box.

County Farm Adviser James G. France predicts that San Diego county ranches will earn for their owners between $15,000,000 and $20,000,000 during 1928. This announcement was given out recently, following a survey by Mr. France and county horticultural commisisoner, R. R. McLean. Both men stated that, although it is early to predict what the crops will be, they believe that 1928 will be a record-breaker. Following is a list of crops and probable acreages for the current year as indicated by the survey: Grain hay, 400,000; alfalfa, 5500; barley, 8000; wheat, 2000; corn, 2000; lima beans, 7000; apples, 674; peaches, 1285; olives, 1400; walnuts, 434; pears, 270; apricots, 635; prunes, 285; plums, 320; almonds, 128; figs, 309; cherries, 130; avocados, 318; lemons, 4382; oranges 1633; grapefruit, 135; muscat grapes, 3267; wine grapes, 1934; table grapes, 1874; celery, 750; potatoes, 1650; peas, 300; green beans, 400; tomatoes, 4000; cauliflower, 800.

J. F. Lobingier of Pomona, vice-president of the Cutler-Lobinger canning company, which operates plants in Pomona and Ontario, and in Orange county, states that the Orange county plant is now busily at work canning the spinach crop, with an anticipated pack of 175,000 cases of two dozen cans to the case. Following spinach, a large acreage of string beans, which has been contracted for, will be canned. The plant here will not be reopened until time for the summer run on apricots.

Golden State
News of Interest to All

During the third quarter of 1927 exports of merchandise from California were valued at $68,202,018, compared with $$72,985,978 during the corresponding period of 1926, a decrease of $4,783,960, according to figures made public by the Department of Commerce. California was the fourth largest among the States during the quarter, improving its position from the second quarter when it ranked fifth. California was topped only by New York, Texas and Michigan.

Governor C. C. Young and members of his family narrowly escaped what might have been a serious automobile accident last week on the Freeport road south of Sacramento. The car containing the governor and his party swerved from the highway and was brought to a safe halt with difficulty when a rod connecting with the steering wheel, in the hands of Miss Barbara Young, the governor's daughter, suddenly snapped and threw the machine out of control.

Five new lilacs, the last plants with which Luther Burbank worked prior to his death, are in bloom on the experimental farm near Sebastopol and are declared to be among the most beautiful species of lilacs known. They are described as a very large double white "hose-in-hose"—double white and a double purple of the same variety. Prior to his death Luther Burbank told correspondent that he felt confident he would produce from his experiments the finest of all lilacs.

Declaring that the state traffic officers' force is self-supporting and actually costs the taxpayers nothing, George F. Moynahan, acting chief inspector of the division of motor vehicles, announced last week that the officers received $640,412.86 in salaries last year but were responsible for collection of $468,748.42 in fines and delinquent fees. Moynahan said the traffic officers stopped 234,738 persons on the highways during 1927 and arrested 67,013.

Approximately 300 United States Army, Navy, Marine Corps and California National Guard planes, flying in one dense mass formation over San Diego, will be the spectacle which will be unfolded to Southern California about August 30. The flight, which will be the climax of two months of intensive aerial battle maneuvers by the aircraft squadrons of the battle fleet, will eclipse any aeronautical event of its kind in flying history.

California highway contracts aggregating $5,336,818 will be awarded during the next four months. In making this announcement B. B. Meek, State director of public works, asserted that the March program of the division of highways calls for the award of contracts and requests for bids for work totaling $4,250,000. Projects included in the March program are located in nineteen counties and its volume and wide distribution are expected by Meek to provide an important factor in relieving unemployment.

The State Board of Education has approved the plans of State Architect George B. McDougall, Forum building, Sacramento, for the Chico State Teachers' College to replace structures destroyed by fire. The construction program will be undertaken as follows: (1) immediate construction of a $200,000 main classroom building: (2) recommendation to the 1929 legislature for appropriations to erect a second unit of the development program, an assembly building of undetermined size and cost; (3) recommendation to the legislatures of 1931, 1933, 1935 and 1937 for further appropriations to erect units including library and science buildings, classroom buildings and training quarters. This will distribute the cost over the 10-year period.

With the arrival at San Quentin prison of William Edward Hickman, slayer of Marion Parker, eight murderers are awaiting execution in California's two penitentiaries, it was announced at the governor's office last week. At Folsom prison Willard D. Shannon, convicted in Amador county of killing Harold Lage, Stockton automobile salesman, is under sentence to go to the scaffold May 4. April 27, the execution date fixed for Hickman at San Quentin, is also the day on which Edgar Lapierre, Alameda county slayer, is scheduled to mount the gallows at the same prison. The five other murderers under death sentences at San Quentin are: John Joseph Malone, Los Angeles county, to be hanged May 4; Mark Dowell, San Francisco, on appeal; Lonnie Johnson, Merced county, to be hanged May 11; Joseph Troche, Eldorado county, on appeal; Clarence Kelly, San Francisco, to be hanged May 11.

INDIA LEGEND IS THEME FOR 1928 PAGEANT

The mystic country of India with its picturesque Himalaya mountains, Temples, Taj Mahal's, Princes and Priestesses, Sacred Cows and Cobras, will furnish material for the annual Pageant this summer, it was announced at the Chamber of Commerce director's meeting yesterday noon at the Black Cat Tea House. Miss Donna M. Winning presided.

Henry Crall, leader in local dramatics, has written the script with the suggestion of other members of the committee: Herbert Roberts, Mrs. Sanborn Young, S. D. Balch and Charles Hayward.

"The material has wonderful possibilities, for an excellent pageant," Mrs. Young told the Mail-News yesterday. "People have grown a little tired of Dons and Senioretas parading the haicienda. Oriental Music, high and low caste Hindus, Fakirs and the like will lend exquisite color to a Pageant of India."

Entirely new sets and scenery will be built for the production.

ANOTHER PIONEER ANSWERS CALL

In the passing of Martha Wade at her home Monday evening, Campbell has lost another beloved pioneer.

Coming to Campbell 35 years ago with her husband, the late S. R. Wade, former manager of the Farmers' Union branch store, she has lived here since with her circle of friends ever enlarging. She has raised a family of four children, Herbert and Ben Wade of Oakland, Mrs. Lila Strong and Mrs. Florence Cottle of Campbell, all of whom survive her.

Recently she had been suffering from heart trouble and her health steadily failed.

Funeral services were held from Curry & Gripenstraw Parlors, San Jose and interment made at Oak Hill Cemetery Wednesday afternoon.

The division of irrigation investigations, University of California, under the direction of S. H. Beckett, university farm, has started an investigation of the rate of water usage by mature citrus and walnut trees in Orange county. Prof. Beckett and Dr. Frank Adams, head of the division, examined many locations in Orange county last month. Two citrus plots and one walnut plot were established on which to conduct the intensive studies. The citrus plots are at the Ross Shafer grove, Tustin, and the Carroll Ranch, Anaheim, the former representing a clay loam series, and the latter a sandy loam series. The walnut plot is in the grove of Harry W. Lewis, Santa Ana.

The Intercontinental Rubber Company reports net profits of $659,066 for 1927, after all charges, equal to $1.11 a share. Operating profits were $899,700. A new brand of Guayule rubber which is grown in California, was placed on the market during the year, which sold at a premium over the other brands. No change has been made in the company's program of gradually expanding Guayule planting in California, about 1800 acres having been transplated in February, 1928.

Conditions now indicate that Imperial Valley will this season produce the largest crop of cantaloupes per acre in the history of the district, according to the opinion of J. B. Norton, mildew expert, who is devoting his time to methods for controlling this plant pest. Norton declared that there is no evidence of mildew in valley fields at the present time. The 27,000 acres planted to melons are in unusually fine condition, he said, and cantaloupes should start rolling from Imperial Valley in carload lots soon after the first of May.

GRANGER BOHNETT HONORED BY ORDER

Mr. Leroy Anderson spoke at the grange Tuesday evening on the Export Debenture Plan, the grange bill now before Congress. the intent of the bill is to cover all export of surplus products, which would include prunes and other dried fruits as well as grain and cotton, raising the price to producer. He gave a very clear explanation of the object and working of the bill. Dr. Crothers, Hedegard and others also spoke in support of the bill, which was endorsed by vote of the grange.

Quite a large delegation of Sunnyvale grangers were present including their master, Mr. Fred Penton. Condition of apricot crop was reported on by members from widely different parts of the valley indicating considerable damage to the crop by rain, some places reporting 90 per cent rotting and other places only 10 per cent.

Mr. Harms recommended sulphoring for rose mildew at once, also the use of "Black Leaf 40" for aphis, this may be obtained at our stores with directions for use and is very effective.

One of the features of the meeting was the celebration of the 80th birthday of our veteran granger and past master, Joseph Bohnett. Mr. Frank Mitchell, the first master of Orchard City Grange conducted Brother Bohnett to the front of the hall where in a few pleasant words he presented him with a beautiful guest book containing the names of about 100 members who were present, also a grand specimen of cedrus Deodara, an evergreen tree from India, and other plants.

Mr. Bohnett replied in his most happy mood and seemed well pleased with the occasion.

The grange orchestra were present and gave several selections of their fine music. Mr. Calvin Bohnett also added to the enjoyment of all present with selections on the violin.

Cake and coffee were served in the banquet room and all enjoyed a social time.

The next meeting of the grange will be Tuesday evening April 10, and the hour of meeting changes to 8 p. m. for the summer season.

April 28 will be the next card party at the library.

SPECIAL PROGRAM

Special Sunday Night Services During April at Methodist Church

April 1st.—Max Watson, county probation officer will speak on "The Conservation of Life and how Church Can Help."

April 8th.—Easter Cantata, "Allelnia," by a large choir with Mr. Phillips leading.

April 15th.—Dr. Frank Flegal of San Francisco will tell the story of the Goodwill Industries. Illustrated.

April 22.—J. R. Chesney of San Jose will lecture on "India, The Land of Mystery and Magic. Mr. Chesney has just returned from a study of life in India. Special music at each service.

Don't miss one.

A warning that Northern California may face a "dry year" was seen a few days ago in the announcement at the United States Weather Bureau at Sacramento that the Sierra snow pack is scarcely more than one-third of the average for the last fifteen years.

The second annual world championship orange packing contest will take place May 24 to June 3, at the time of the California Valencia Orange Show at Anaheim. Teams from the different packing houses already are practising and hundreds of entries have signed up. Constance Estrada, champion of Mexico, and one of the fastest packers of last year's contest, is favored by many as a winner for this year. However, competition will be very keen. The girl who wins the title will receive a silver cup and several other valuable prizes.

NEW WATER COMPANY TOWER A BOOSTER BEACON FOR CAMPBELL

Campbell citizens and visitors are watching with a great deal of interest the erection of the new mammoth water tower and tank by the Campbell Water Company.

The new water settling and filteration system with the booster pump are being installed and when the system is completed Campbell will have one of the most modern water supply systems in the State.

The tank will be over 100 feet high and is so connected with the mains and pump that a constant pressure of almost 60 pounds will be maintained whether all faucets or none are running. The capacity is being doubled. The company is going to a big expense to give Campbell this modern service, and it is hoped, will be a paying investment.

Ralph Hyde, manager, stated that an appropriate booster sign will be painted on either side of this huge tank that will be land mark and a guide to all in this part of the valley. And incidentally it will prove a good advertisement for Campbell.

MRS. PERROTT HONORED GUEST

Mrs. J. C. Ainsley, assisted by her daughter, Mrs. W. N. Lloyd and daughter-in-law, Mrs. E. G. Ainsley, are giving a series of series of parties through the spring season, having had one last Thursday and another yesterday.

The one on March 15 was a bridge tea in honor of Mrs. F. V. Perrott, niece of Mr. Ainsley, who left on Monday for England.

The beautiful bulb gardens of Gordon Ainsley furnished quantities of magnificient daffodils and tulips which completed the beautiful setting of the spacious rooms and halls.

The same beautiful spring colorings were used in the dainty luncheon and favors. The shell of the avocado pears served as containers and bearin gtiny masts and golden sails were clever reminders of the journey so soon to be the pleasure of the guest of honor.

NEW YORK STATE NOT BACK OF SMITH

Editor Smith,
Campbell, Calif.
Dear Sir:

The Governor of New York State, Alfred E. Smith and his backers have repeatedly stated that this State was solidly behind him in his ambition to become President of the United States. To refute this and inform you and your fellow-citizens that Governor Smith never had and never will have this State behind him, we request you to reprint in your newspaper the following official election statistics:

The State vote in election of 1924 for Governor.
Alfred E. Smith 690,170
Col. Theodore Roosevelt 1,100,577
Roosevelt majority down to the City of New York, 410,407.

The State vote in election of 1926 for Governor.
Alfred E. Smith 648,157
Ogden L. Mills 920,465
Mills majority down to the City of New York 272,308.

In the City of New Yrk 1 person in 5 is born on American soil. If we are wise we will limit immigration. Why lose our birthright? Stand by the Quota Law.

Mrs. Jas. G. Wentz, Pres.
N. Y. Women's Rep. Club

SCRIBES PLAN ANNUAL OUTING

Crater Lake, Klamath Falls and the Rogue river valley will be the objective point of the California Press Association this year. The party will be composed of one hundred editors and their wives, and a fine program has been outlined.

The party will leave San Francisco on a special Pullman train. At Klamath Falls a day will be spent in sightseeing and then on to Crater lake. Five days will be spent there, where the annual convention and election of officers will be held. An interesting program is being arranged and a number of social events planned besides such sports as fishing, mountain climbing, boating, skiing and hunting.

The arrangements are being made by the president, Friend W. Richardson and Secretary Oran A. King.

The excursion promises to be one of the best of many outings held by the editors of the State organization.

SAVE BIRD LIFE LUNCHEON TOPIC

Campbell Kiwanians were favored this week with a most interesting discourse and slide display of the birds of California by Mr. S. S. S. Stansel. He has made a very extensive study of birds and thei rhabits.

Mr. Stansel declared that man must conserve the bird life of this country in order to make his own position here secure in the future. Experience has shown that where birds have been destroyed other pests have proved more harmful to that section than the birds were and when the birds were permitted to increase the other pests decreased.

His preference to shooting birds with the camera rather than the gun has well rewarded him in the fine specimens of pictures of birds from the nest to old birds.

He is a strong advocate of conservation of the wild life and urged his hearers to promote the idea. Charles Shumway acted as chairman.

C. H. Whitman reported the district meeting meeting at Gilroy and T. A. Cutting the one held last week at San Jose.

HEAR NEW FIESTA SONG

The new song hit "A feast of Roses" (In the Valley of my Dreams) composed by Campbell's Choral Society director, Mr. Benjamin Edwards, is to be sung over KQW radio station at 8 o'clock Friday evening. Roy Sobey is the soloist and will be accompanied by Mr. Edwards at the piano and Carroll Miller at the xylophone.

This new song is the first one of the Fiesta contest productions to the be broadcast over the air.

Mr. Edwards will also sing two selections and this program will be a treat to his many friends in the valley.

TO VISIT HOMELAND

Mr. and Mrs. L. Genasci expect to leave about the fifteenth of next month for a trip to Europe, planning to be gone for six months. They will make several stops between here and New York, from which port they will sail April 28 on the Olympic. Their trip will include a visit to the war zone in France and Belgium, with sight seeing in Italy, but the greater part of the time will be spent with relatives in Switzerland and France.

We'll put all the people in the air whenever they learn to fly." —**Henry Ford.**

Register Now

If you expect to vote for Hoover or Al Smith or Jim Reed or Senator Walsh in the Presidential primary, and you have not registered, your time is short. This is written to remind you that registration for the Presidential primary will close at midnight, Saturday, March 31. If you are a Hoover adherent registration isn't so important for he has no opposition, but if you are a Democrat, that is another matter. The Democrats have three estimable candidates, and no matter which one you vote for you can't go far wrong.

Be Kind to Animals

The American Humane Education Society of Boston is securing some helpful publicity at a nominal expense by offering annually cash prizes to writers for the best editorials during March and April on "Kindness to Animals." Editorial writers far and wide give expression to humane thoughts in their columns, and it will interest newspaper readers of Santa Clara valley to know that R. L. Burgess, a brilliant fellow, who was editorial writer of the San Jose News until it changed ownership last year, won the first prize—$50—in 1927.

Burgess wrote in part as follows:

"Be kind to animals, you're one yourself!" said this newspaper some years ago, and since then the saying has been widely used by humane workers all over the country. And we do always feel, when this week comes round, that it is important to remind human beings that the animals are very much like them, and that if they wish to know how animals feel when mistreated, the best thing to do is to remember how human beings feel when mistreated. This may seem elementary and platitudinous, but all humane workers know how many people fail to put themselves imaginatively in the place of the animals.

"On this one week in the year, the animals are privileged to say to us, in the words of Shylock, "Have we not organs, dimensions, senses, affections, passions, . . . warmed and cooled by the same winter and summer as a Christian is? . . ."

"And so we say once more: Be kind to animals, you're one yourself."

NOTICE TO CREDITORS
Estate of ARABELLA WING, also known as Mrs. J. B. Wing, Deceased.

Notice is hereby given by the undersigned Executrix of the last Will and Testament of Arabella Wing, also known as Mrs. J. B. Wing, deceased, to the creditors of and all persons having claims against the said decedent, to file them, with the necessary vouchers, in the office of the Clerk of the Superior Court in and for Santa Clara County, California, within four months after the first publication of this Notice, or within said period to exhibit the same, with the necessary vouchers, to the said Executrix at the office of Bohnett, Hill & Campbell, Rooms 311-313 Bank of San Jose Building, in the City of San Jose, County of Santa Clara, State of California, where all business connected with said estate will be transacted.

Rewards of Thrift

THE old argument that limited incomes do not permit a margin for saving falls under its own weight. Thrifty persons contrive to budget their earnings so as to allow a surplus for deposit in the bank. Wise economy is the answer to the whole problem of saving. A savings account in the American Trust Company earns interest at the rate of four percent, compounded semi-annually.

Town Tales Tersely Told

Register at once, to vote.

Stanford students are enjoying their spring vacations this week.

Mrs. Lois Corning of Oakland spent the week-end with her brother C. C. Byrnes and family.

Mr. and Mrs. Albert Howe of San Francisco were week-end guests at J. H. Bachman home.

Mrs. N. S. Peck and son of Oakland are spending the week with her parents, Rev. and Mrs. W. C. Robins.

County Engineer Bob Chandler has his crew laying out the grade lines for the paving of South Central and Railroad avenues.

Mrs. Leigh Saunders is chairman of the meeting of the country Woman's Club Monday, and Book Reviews will be the interesting subject.

Uncle Joe Bohnett celebrated his 80th anniversary Monday and the best wishes of his many friends here and elsewhere are extended him.

Mr. and Mrs. Richard Woellfel and son are moving to Los aGtos this week-end to make their home Their Campbell friends are sorry to have them leave, but wish them happiness in their new location.

Judging from the talk about town there seems to be a strong sentiment for retaining J. E. Weisendanger and J. L. Haglin on the high school board. It behooves all good citizens to get out to vote.

Ada Rebekah Lodge is planning a card party for Wednesday evening, April 11, in the banquet room of the I. O. O. F. Hall. Play will begin at 8 o'clock. Games and refreshments 50 cents. Mrs. A. B. Covey is chairman of arrangements.

C. M., I. L. and W. L. Smith, father and brothers of H. C. Smith, visited here Tues. They are planning to start the first of the week for Minnesota, where they will spend the summer. They are accompanied by Mrs. W. L. Smith.

DONALD MITCHELL LAID TO REST

Funeral services for Donald Edwin Mitchell, little four-year-old son of Mr. and Mrs. Edwin Mitchell, grandson of Mr. and Mrs. W. H. Mitchell, were held at the Campbell Methodist Church, Monday afternoon, March 23, 1928. He was a bright and lively little fellow up to the time of his last illness and was then confined to his bed for one month and two days with rheumatic fever.

He will be greatly missed by his many friends and playmates, for he was a little sunbeam to the many who knew him. The altar and platform of the church was banked with many beautiful floral pieces, which showed that in his little life he had won the love of many.

An angel came to gather flowers,
To deck the throne of Heaven;
He took the fairest one of all,
That God to us had given.

The bird that sang so sweetly,
The vine that crowned the rock,
The glory of the household,
The flower of the flock.

Down from the starry portal,
An angel spread her wing,
Up to the bowers immortal,
This lovely flower bring.

Nourished by living waters,
That ripple past the throne,
They bloom mid Eden's sons and daughters,
Where death is never known.

A new feature of the local library service is a special story hour for the children of lower school grades. Miss Violet Steele of the school faculty will tell stories every Thursday afternoon at the close of school. With her delightful manner and experience this should prove a source of great pleasure and benefit to the kiddies.

Give Him Big Vote

James McNeill, who has been selected to succeed Timothy M. Healy as governor general of the Irish Free State.

REAL SAVING TO JUICE CONSUMERS

Residential electric consumers of the Pacific Gas and Electric Company are being advised through press announcements and notices mailed that the new domestic rate will apply with the first meter readings taken after April 1, where the consumer qualifying has returned the application blanks to the local office.

This new rate, according to John D. Kuster, local manager of the company, will result in a considerable saving to the consumers and in order to expedite the application of the new rate the notices and advertisements are used as a medium of informing the public, an dlearning of those customers entitled to the new rate.

The new rate applies where residential consumers have lighting service and in addition use electric appliances totaling, 1000 watts or more. The use of such appliances as perculators, irons, toasters, waffle irons, heaters or similar equipment will qualify the residential consumer to receive this rate. As for example: A householder residing in a dwelling of 6 rooms or less, who has been using an average of 50 kilowatt hours has been paying $3.30 a month. Under the new combination rate he will pay $2.60 a month, a saving of $8.40 a year, making the reduction greater than the amount paid for 2½ months of service under the lighting rate. The saving in all territory will be in similar proportion.

Consumers should mail their applications immediately, or call at the local office where arrangements will be made for the application of the lower rate.

The Porter bill in Congress which provides for establishment of two Federal farms for narcotic addicts last week won the unqualified support of former Senator Frank H. Benson, chief of the state division of narcotic law enforcement and one of those perfecting plans for a narcotic hospitalization unit in California.

California's total estimated daily average crude oil production for the week ended March 17 fell off 4,700 barrels, according to the American Petroleum Institute. The report, issued a few days ago, shows the total estimated daily average crude oil production for the week of the report to have been 609,500 barrels as against 614,200 barrels for the week ended March 10.

Methodist Episcopal Church
W. C. Robins, Pastor

DIPPING INTO SCIENCE

Heat and Brilliance of Stars

The heat of a star is determined by its brilliance. At the hottest stage it is brightest because the light from it is white. But as it cools as all stars do in the course of time the light becomes yellow and then red and so cools down until it becomes a planet such as our own earth.

Produce and other commodities leaving the Turlock Irrigation District during 1927, exclusive of auto truck shipments, totaled 7,447 cars, according to figures obtained from the transportation companies, bringing gross revenues estimated at more than $10,000,000 into the district. Auto truck shipments are placed at 1,500 cars.

J. N. Sotow of El Monte produced forty cars of celery last year on 35 acres. Under the single-row method of culture this is considered an excellent yield. Mr. Sotow produces his crop by planting the seed directly in the field, a practice which is seldom employed outside of the San Gabriel Valley. On account of the tall growth on his celery he shipped a large part of his crop in 24 and 26-inch crates.

CERTIFICATE OF PERSON DOING BUSINESS UNDER A FICTITIOUS NAME

STATE OF CALIFORNIA, County of Santa Clara, ss.

I, the undersigned, do hereby certify that I am in the barber business at 1158 Lincoln Avenue, San Jose, California, and doing business nnder the ficlitious name and atyle of "Willow Glen Barber Shoppe,"

That the principal place of business is 1158 Lincoln Avenue, San Jose, Cali. fornia.

That my residence is set forth opposite my name attached hereto.

L. F. Jones, residing at Rincon Avenue Campbell, California.

STATE OF CALIFORNIA, County of Santa Clara, ss.

On this first day of March, in the year one thousand nine hundred and twenty eight, before me, R. F. Robertson, a Notary Public in and for the County of Santa Clara, State of California, personally appeared L. F. Jones, known to me to be the person whose name is subscribed to the within instrument, and acknowledged to me that he executed the same.

(Seal) R. F. ROBERTSON,
Notary Public in and for the County of Santa Clara, State of California.

The average dairy cow in California produces 217 pounds of milkfat annually. The only State having higher production is New Jersey.

Albert W. Cook, meterologist, who has been in charge of the government frost-protection work in the Redlands, Highland and Rialto district is to leave for similar work in Washington apple orchards district within a few days. Mr. Cook stated that there is little danger of killing frost at this time of the year in the Redlands district. He reported that less orchard heating has been necessary in Redlands groves this year than any year since he has been at Redlands.

Certain varieties of oranges show some possibilities of commercial production in the Imperial Valley, according to a survey made by Dr. H. J. Weber of the Citrus Experiment station at Riverside, and Frank Beyschlag, assistant farm adviser of Imperial county. These varities are Ruby Blood, Enterprise seedless, Pineapple, Parson Brown and Indian River.

Prof. H. R. Guilbert, in charge of the beef cattle investigations at the University farm at Davis, announces a cattle feeders' day will be held at Davis on Saturday, March 10. There have been experiments conducted with feeding of cattle since 1922, and two years ago a field day similar to the one now planned was held. At that time there was a barbecue lunch served, when one of the steers formed the meat for the meal. There will be no barbecue this year, but a report of the feeding experiments which have been under way will be given out, as well as the program of interest to cattlemen.

California co-operative marketing associations will be studied first hand by the members of the American Institute of Co-operation, which meets in California this year for its fourth annual session. The Institute, which is to last four weeks, will meet in Los Angeles on July 9, and will spend the first week in a field survey of some of the largest and most successful agricultural marketing agencies in the state. This trip will bring the Institute to Berkeley at the end of the week, where the last three weeks will be spent in lectures and study at the University of California.

"The prospect during the next few years for low prices for fresh grapes and raisins, under normal conditions, emphasizes the vital necessity for more effective adjustment between the production and distribution of California grapes, on the one hand and market requirements on the other," said Dr. S. W. Shear of the agricultural experiment station, recently in reviewing the outlook for the grape industry. "To improve the situation, costs of production and marketing must be lowered, the quality of the commercial output improved, the quantity decreased and the demand stimulated."

Governor Young plainly indicated last week that there is little chance of a special session of the State legislature which a committee of fruit growers recently proposed for the solution of problems affecting their industry. The State legislative counsel bureau, at the governor's direction, is now preparing a compilation of existing laws which are believed, it was said, to meet the needs of the fruit industry without further legislation at this time.

Charging the San Joaquin Light & Power Corporation with discrimination against farmers of the state, the California Farm Bureau Federation last week filed a complaint in San Francisco against the power company with the state railroad commission. The action was taken, the complaint recited, because of the failure of the utility company to grant a voluntary reduction of the agricultural power rate when the rate to domestic and general lighting consumers was reduced February 20 The farm bureau officials intimated that they plan a state-wide campaign for a uniform schedule of power rates for agricultural use throughout the state.
